Directional Changes Project

Follow up 14/08/2018

Jurgen Palsma

What have I done since last time (30/07)?

-   Continued param tuning

-   51 config for pso
-   41 configs for csfla

-   Friedman test on best 10

What have I done since last time (30/07)?

- Continued param tuning

- Established 5 configurations for each algorithm

- Friedman test / Results analysis

What's next (?)

- Is my analysis good?

- Start writing?

- More test data?
